# SATYA BINTANG ESA RESIADI

Demak, Indonesia | +62895369982050 | satyabintang10@gmail.com | LinkedIn | Portfolio

## PROFILE SUMMARY

Statistics graduate specializing in **Data Analytics, Data Science, and Business Intelligence**, with hands-on experience in transforming complex datasets into **actionable business insights**. Proficient in **Python, SQL, statistical analysis, machine learning, and modern data visualization tools** to support data-driven decision-making. Experienced in developing **analytical solutions, dashboards, and predictive models** for real-world business problems. Demonstrates strong analytical thinking, problem-solving, and attention to detail, with a commitment to continuous learning and delivering meaningful impact through data.

## EDUCATION

**Sebelas Maret University (UNS)** Aug 2022 – Jul 2026

*Bachelor of Statistics* | GPA : **3.54** / 4.00

- Teaching Assistant at **Department of Statistics, Faculty of Mathematics and Natural Sciences (2024)**
- Achieved of **5+ national competition awards** in statistics, data analytics, and data science, demonstrating strong expertise in analytical thinking, statistical modeling, and data-driven problem solving.
- Undergraduate Thesis : **Early Detection of Financial Crises in the Philippines** Using **LSTM, Hybrid CNN-LSTM, and GRU Deep Learning Models.**

## WORK EXPERIENCE

**PT Asuransi BRI Life** | Jakarta, Indonesia Mar 2026 – Apr 2026

*Business Analyst Intern – Bancassurance Strategy Division*

- Managed and analyzed **140K+ nationwide insurance policyholder records** related to premium performance to support data-driven insights and strategic business decisions.
- Developed automated reports and interactive dashboards using **Excel (Pivot Tables, data aggregation) and Power BI** to monitor key metrics and improve reporting efficiency for the Bancassurance division.
- Contributed to major divisional programs, including **AMKKM, AMKKM+, and GEBYAR**, by **managing and analyzing operational and performance data**, ensuring accurate **tracking, visualization, and reporting to support program monitoring, stakeholder evaluation, and business outcomes.**

**Technocolabs Softwares Inc.** | Indore, India Sept 2025 – Nov 2025

*Data Scientist Intern*

- **Conducted financial and default risk analysis on 179,235 P2P lending records across 112 variables** from the Bondora dataset, identifying key risk drivers related to borrower creditworthiness, loan characteristics, and financial conditions to support credit risk assessment.
- **Performed end-to-end data preprocessing and feature engineering**, addressing **26.27% missing data**, removing **38 high-missing features**, applying target labeling, categorical encoding, IQR-based outlier treatment, correlation analysis, and mutual information-based feature selection to reduce the feature space to **15 predictive variables** for default prediction.
- Applied **statistical analysis and machine learning**–driven feature optimization to improve model effectiveness for default prediction, supporting risk mitigation strategies and data-driven decision-making in P2P lending platforms.

**PT Telkom Indonesia (Persero) Tbk (Telkom)** | Jakarta, Indonesia Feb 2025 – Jul 2025

*Data Scientist Intern – Digital Business & Technology*

- Automated and managed performance data for **110 Telkom talents** by designing and implementing a **real-time data pipeline**, and developed the **3rd iteration of an interactive Power BI dashboard** to monitor KPIs, visualize talent performance, **streamline data flows**, and support **strategic performance monitoring** across stakeholders.
- Developed an **AI-powered RAG chatbot** integrated with n8n, processing **800+ pages** of Telkom's 2024 internal reports to enable semantic search, multi-document querying, and context-aware insights for enterprise stakeholders.
- Conducted **10+ AI research studies** covering **model architectures, inference optimization, benchmarks, and evaluation methodologies** across **ML, NLP, Computer Vision, Speech-to-Text, Text-to-Speech, and LLM systems**, translating research findings into **practical insights** to support **AI solution adoption aligned with enterprise needs**.

**PT Global Data Inspirasi** | Yogyakarta, Indonesia Dec 2024 – Feb 2025

*Data Analyst Intern*

- Conducted **3 data analytics projects** covering **sales performance, consumer behavior, and hotel market analysis**, applying data exploration, cleaning, preprocessing, visualization, and analytical techniques using **Tableau**.
- Built an **interactive Sales Superstore dashboard** from approximately **10,000 records across 21 attributes**, analyzing sales and profitability trends across time and regions to identify top-performing categories and underperforming segments.
- Developed a **Tableau consumer behavior infographic** titled **"Exploring American Shopping Patterns"** and analyzed **ROBOTA hotel analytics platform** data covering **pricing, market trends, and customer reviews** to generate **actionable insights and recommendations** for business and customer **evaluation**.

**Kudata.Id** Dec 2024 – Jan 2025

*Data Analyst Intern*

- **Analyzed and integrated 4 interconnected datasets** covering users, surveys, participation, and payments, performing data cleaning, transformation, and validation across **1,000 users, 200 surveys, and 13,979 participants** to ensure reliable analytics and reporting.
- **Designed and developed an interactive Google Looker Studio dashboard** with dynamic visualizations, filters, and drill-down capabilities to monitor **user growth, survey performance, participation trends, fulfillment, and payment metrics.**
- **Identified key engagement and performance insights,** including a **48.2% survey fulfillment rate, 996 paid users**, and **97.2% repeat participation**, translating analytical findings into **actionable recommendations** for platform performance monitoring.

## PROJECT EXPERIENCES

**TALENTA (Telkom Annual Language Model Assistant) | AI-Powered RAG Chatbot**

- Developed an AI-powered **RAG chatbot** to enable interactive access to **800+ pages** of Telkom Indonesia's 2024 corporate reports, integrating semantic search, reranking, and **n8n workflow automation**.

**Real-Time Data Pipeline Automation & 3rd Iteration Dashboard**

- Designed and implemented a **real-time data pipeline** for performance data of **110 Telkom talents** and developed the **3rd iteration of an interactive Power BI dashboard** for KPI monitoring and strategic performance analysis.

**AMKKM Program BRILife Dashboard**

- Developed an interactive **Power BI dashboard** to monitor AMKKM program performance across **400 branch offices and 4,994 operational units**, analyzing premium achievement, customer participation, product distribution, and reward performance to support performance evaluation and reporting.

**Survey Performance Analytical Dashboard**

- Integrated and analyzed **4 interconnected datasets** covering **1,000 users, 200 surveys, and 13,979 participants**, developing a **Google Looker Studio dashboard** to monitor survey engagement, fulfillment, user activity, and payment performance.

**Other Project** : BizUMKM, RekoTani, Retail Analytics Dashboard, Brazil E-Commerce Analytics, NutriGO, etc.

## ORGANIZATIONS & VOLUNTEERING EXPERIENCES

**Digistar Club by Telkom Indonesia** April 2026 – Present

*Event & Data Research Staff | **AI Ecosystem & Infrastructure Student Club*** **(AIRA)**

- Organized and supported **10+ AI-focused webinars, events, and workshops** engaging **50+ participants**, promoting awareness of **AI, data, and digital infrastructure** among students.
- Conducted **research and data analysis** on AI trends, emerging technologies, participant engagement, and event performance to support program planning
- Collaborated with cross-functional divisions to develop event concepts, prepare research materials, coordinate participants, manage timelines, and evaluate program outcomes.

**Sebelas Maret University (UNS)** Jan 2026 – Feb 2026
*KKN Team Leader | Community Development Program*

- Led a **8 member multidisciplinary team** in planning and executing **7 community empowerment projects**, coordinating with village government and local stakeholders to deliver programs aligned with the **SDGs**.
- Oversaw financial management for **community empowerment projects**, achieving **80% budget utilization** through structured budgeting, resource allocation, and expense monitoring.
- Coordinated **7 initiatives** covering **UMKM digitalization, environmental sustainability, and local economic development**, overseeing task delegation, project timelines, stakeholder communication, and final reporting.

## AWARDS & ACHIEVEMENTS

- **3rd Place** - SPARK Telkomsel Datathon, Bandung Institute of Technology (ITB) | 2025
- **Best Presentation** - KIS ANAVA #19, Gadjah Mada University (UGM) | 2025
- **2nd Place** - Data Mining Competition, Trunojoyo University Madura (UTM) | 2025
- **3rd Place** - Infographic Competition, Tadulako Data Challenge (TDC), Tadulako University (UNTAD) | 2024
- **Finalist** - Estatics Competition, GAMMAFEST, IPB University (IPB) | 2025
- **Finalist** - Machine Learning Competition IFEST 5.0, Multi Data University of Palembang (UMDP) | 2025
- **4th Place** - Sebelas Maret Statistics Dashboard Competition (SSDC), Statistics Fair, Sebelas Maret University (UNS) | 2025
- **2nd Place** - National Data Analytics Competition (NDAC), EPSILON, Padang State University (UNP) | 2025
- **Top 6** - Data Visualization Competition, Information and Technology Week (P!NGFEST), Sebelas Maret University (UNS) | 2025
- **Top 10 -** Data Analyst Competition (DAC) Find IT Gadjah Mada University (UGM) | 2025
- **5th Place -** Infographic Competition Statistics Data Challenge ( SDC ) UNISBA | 2025
- **5th Place** - Essay Competition, Smart Statistics (SMATIC) 6.0, State University of Jakarta (UNJ) | 2025

## ADDITIONAL INFORMATION

- **Technical Skills : Data Analytics & Statistics:** Exploratory Data Analysis (EDA), Statistical Analysis & Modeling, Data Cleaning & Preprocessing, **Programming & Data Processing:** Python (Pandas, NumPy), SQL, R, **Business Intelligence & Visualization:** Power BI, Tableau, Looker Studio, Excel, Matplotlib, Seaborn, Plotly, Dashboard Development, **Machine Learning & AI:** Scikit-learn, XGBoost, LightGBM, CatBoost, TensorFlow, PyTorch, Supervised & Unsupervised Learning, Deep Learning, **Data Platform, Database & Cloud:** Microsoft Fabric, MySQL, PostgreSQL, BigQuery, Microsoft Azure, **Development & Automation:** FastAPI, Streamlit, Docker, n8n, Jupyter Notebook, Power Automate
- **Certifications :** Google Data Analytics Professional Certificate; Big Data Analytics Fundamentals; Dicoding Certifications in Data Analysis with Python, Data Science Implementation with Microsoft Fabric, Generative AI Application Development with Microsoft Azure, and Machine Learning for Beginners; Microsoft Certification in Preparing Data for Analysis with Microsoft Excel
- **Personal Skills :** Analytical Thinking & Problem Solving, Attention to Detail, Effective Communication, Team Collaboration, Adaptability & Continuous Learning, Time Management & Prioritization, Presentation Skills
- **Language :** Indonesia (Native), English (Intermediate)
